Bemerkung: Stephen Hartke (2011): "Netsuke are Japanese miniature carvings that were originally made to secure objects suspended from a man's sash. Often very intricate in design, they represent a broad range of subject matters from depictions of animals and people, to scenes from folk-tales and literature as well as everyday life, to fanciful supernatural creatures. This piece was inspired by six exquisite carvings from the Bushell Collection at the Los Angeles County Museum of Art." Siehe http://www.stephenhartke.com/netsuke.htm
